

## PROGRAM OVERVIEW

Music Literacy does not only benefit an individual by sharpening the memory and strengthening the mind, but it offers a creative outlet for the person, teaches discipline, and fosters teamwork and employment avenues.

Students who study Theory of Music **Grades 1-5** are taught Key signature, Chords and Harmony, Pitches and Intervals, Scales and Modes, Rhythm and Rests, Metre and Time Signature, Transposition and Clefs, Ornaments, and Questions (Italian terms).

Those who study Theory of Music **Grades 6-8** are taught Melodic writing and free composition, Stylistic composition / dance forms / counterpoint, Decorations, Questions (Italian terms).

Those who study Popular Music are taught Scales and Keys, Chords, Rhythm notation, Knowledge of Popular music, Harmony, and Transposition.

The Theoretical Diploma students (**Dip Mus; LCM, A Mus LCM, L Mus LCM**), will study Stylistic compositions, Questions, Comparisons, Short essays, Rudiments, Harmonic analysis, Chorale harmonization, Two part counterpoint, Modulation, Set works, and Orchestration.

Music Literacy would be taught via Distance learning mode (e-books) followed by examinations from London College of Music.

(The Universal Language)

Facilitator:

Dr. Noel R. Campbell

*Music Educator*

D.M.A ; M. Mus; B.A MUS;

L.R.S.M; Dip. MUS. ED.

# BENEFITS

Whether you are a novice or expert studying Music, regardless of your musical skill, level or taste, music has a number of mental and psychological benefits.

## IT SHARPENS YOUR MEMORY

Young students sharpen their memorization skills and strengthen their memory through musical practice. It helps you to think both technically and critically.

## IT OFFERS A CREATIVE OUTLET

The impact that music has on our emotions is remarkable and may even play a role in relieving stress and anxiety.

## IT TEACHES DISCIPLINE

Learning to play a musical instrument is one of the most tangible ways you can learn the importance of discipline, and motivation necessary for life-long learning.

## IT STRENGTHENS THE MIND

If you are looking to improve your overall performance at studies, music study can help you get there. Studies have shown that those who study music perform better in a variety of subjects including math, science, reading and language arts.

Learn to read, write, play, arrange, and compose all instruments: Pan (arranging and composing); Arranging and composing small ensemble, and Horns; Keyboard, Guitar, Music Theory; Art of leading praise and worship; Choral and Contemporary Vocal Arranging and Training; Music therapy; Song Writing; and more.

## Employment Opportunities

- Songwriter
- Performer
- Composer
- Live Music
- Entertainer
- Marketer
- Music Journalist
- Teacher (schools / colleges)
- Arranger
- Producer
- Recording Engineer
- and more

## IT FOSTERS TEAMWORK AND ORGANIZATIONAL SKILLS

Because music is normally taught and performed in a group environment where students must work together, they learn how to contribute their own talents while depending on the other students to create symphony. In this setting skills of organization, planning, and problem-solving must be developed.

# COLLEGE PROFILE

Caribbean College of the Bible International and Seminary (CCBI) has Jesus Christ as the focus of its life, work, and worship.

We offer cutting edge training in preparation for ministry, mission, and the marketplace – the kosmos.

CCBI offers degrees: Associates, Bachelors, Masters, Doctorates, and a host of Certificate programs, including this Certificate.

CCBI is registered with the Accreditation Council of Trinidad and Tobago (ACTT); all its degrees are approved (Assoc- Mast) <sup>1</sup>

<sup>1</sup> ACTT does not approve Doctorates.
